Professional Development

The instructional staff and administration are participating in Professional Development in a number of areas. Among them are: Unpacking and using the Common Core Standards, Use of Informational Text, Engagement Strategies, Lesson Study, Culturally Responsive Pedagogy and Frontloading Strategies (GLAD). Teachers can select specific local, state and sometimes national workshops to attend. The instructional staff and administration are learning how to effectively differentiate instruction and implement Response to Intervention (RTI). Instructional Assistants and Tutors are trained by our District Reading/Language Arts/Specialist to assist with effective literacy and "Tier 1" intervention strategies in the classrooms. Teachers also meet in grade level groups to use data and collaboratively design standards based lessons for each six to eight week unit of study across the curriculum. Creating grade level formative assessments for foundational skills are constantly being developed by teachers based on the skills being taught. Rubrics are created to review writing and project based learning. In addition to academics, Ford's staff is also learning about trauma-informed practices, Restorative Justice, PBIS, and social-emotional strategies for elementary students.

Quality instruction and instructional leadership are at the heart of the district's achievement efforts. To ensure this, the Educational Services Department engages teachers, administrators and other personnel in ongoing professional development focused on improving teaching and learning. Training is provided to principals and other administrators to improve their ability to provide strong instructional leadership and guide teaching and learning at school sites. The principals, in turn, provide support to teachers through staff conferences, regularly scheduled grade-level opportunities for collaborative study and planning, and individual coaching based on ongoing classroom observations and teacher request for support. Teachers and other staff are provided with both on and off-site professional development in all standards based curriculum content areas. Professional development is provided in English Language Development, differentiated instruction, and educational technology. Training is also available in classroom management and the effective use of assessment data. A primary goal of the professional development program is ensuring that all students are served by skilled, highly qualified teachers and that teachers are supported by strong, knowledgeable instructional leaders.
